

Preparing Your Horses For Sale

As the late summer approaches, the equine industry shifts its focus from foaling and breeding, to sales prep. The preparation of weanlings and yearlings for sale at public auction is a bit of an art form; a matter of taste, much as a purveyor of bourbon crafts their spirits according to what suits his or her palate. Emphasis must be placed on proper feeding, health care, grooming and exercise, all designed to bring a horse to its peak at sale time.

Products that may help your horse stride in SALE-READY:

- * As we often hear "no foot, no horse" Repair enhances hoof growth, quality and strength
- * Not previously available commercially, but sought after by sport horse enthusiasts and select farms for sales prep
